

 has been manufacturing Evaporative Cooling Pads for Livestock Confinement, Gas Turbines, Greenhouses, Industrial Cooling, Heat Exchangers, and A/C Systems for over 15 years (since 1992). Our Evaporative Cooling Pads are used by over 10 of the Top Broiler Companies in their poultry farms throughout North America.  has always prided itself on delivering high quality Evaporative Cooling Pads without the high prices that other competitors charge.

All our pads are made from virgin "highly absorbent" cellulose kraft paper with engineered cross-corrugated flutes that are chemically impregnated with thermosetting resins to provide optimum performance. We outperform other pads because of our commitment to quality, so you get an Evaporative Cooling Pad that not only has longer service life, but is also virtually maintenance free.

 is sold exclusively in the USA by DRB Industries LLC, a leading company with over two decades of experience in the Air Cooling and Filtration Industry. With our Warehouse / Distribution Center centrally located in Oklahoma, USA, DRB has distributors / agents throughout the continental US to serve you.
