

***FT* Cylindrical
Pulse Filter
Cartridge**
(For FARR Tenkey Pulse Jet Air
Filter Systems)

DRB Industries offers the *FT* Cylindrical Filter Cartridge Filter for FARR Tenkey Pulse Jet Air Filter Systems. Our filter comes in a variety of media choices to fit your operating system. All Media comes with a dimple pleat configuration & with hot spiral glue bead to add extra stability to the media surface. Corrosion resistant Galvanized Metal Liners and Flanged End Caps are standard (SS is also available). A seamless gasket for an airtight seal is also standard. A Hot Spiral Glue bead separator adds extra stability to the media surface and provides uniform spacing. Available in 22', 27', & 34' Sizes.

Fits FARR Tenkey Pulse Jet Air Filter Systems & S & S LM2500, LM5000 and LM6000 Air Filter Systems

“A more efficient, cost effective replacement filter for FARR & LM series air filters than the leading competitor.”

Size Dimensions
Comes in different sizes – 22", 27", & 34"

Design Specifications

Type	Flanged Top Cylindrical Pulse Filter Cartridge
Materials	Corrosion Resistant Galvanized Metal End Caps & Internal/External Liner
Filter Media	Available in: Pleated, Blended Synthetic Media.
Gasket	Seamless Rubber Gasket
