COMPLETE TURN-KEY SERVICES (Design, Manufacture, and Installation)

Let **DRB** Industries provide you with a complete “**Evaporative Cooling Solution**” – everything from our expert engineering / design services, state of the art fabrication and manufacturing, all the way to our highly-skilled installation / construction crews. **DRB** is your Evaporative Cooling authority to provide you with the most cost-effective and reliable system for your particular application.

INSPECTION / TROUBLESHOOTING SERVICES

DRB Industries will send an Evaporative Cooling Operations and Reliability Expert directly to your site to perform a complete inspection or troubleshooting assessment of your system. These proactive maintenance services will jump-start your Evaporative Cooling program and increase the efficiency and quality of your cooling operations. Call us today and schedule an audit or assessment.

MEDIA INSTALLATION & REPLACEMENT

DRB Industries will commission and replace deteriorated Evaporative Cooling media. We can also supply Evaporative Cooling media, distribution pads, and drift eliminator panels for your system. We can replace your media for your outage and also perform repair work during off-peak periods. Our installation services also include annual commissioning services per OEM recommendations.
